Summary

I quitted my job since Feb 2021 after almost 4 years work like a Tester. I feel happy with my job but in the deep down, something is missing. I spend a lot of time to think about it. And finally found my desire is coding not is testing. So, I decided to take risk, start from the zero and want to be a hero. I spend 6 six months to studying, with 12-16h/day. Started with HTML/CSS basic, Javascript, ReactJS, NextJS, CSS library link Bootstrap, Tailwincss. This is small projects i have done
